

La Herradura

Joaquín de Salterain 1240, corner Guaná

Tel: (00598) (2) 409 7894

The school is located in a beautiful old house in the safe, central and leafy *Parque Rodó* neighbourhood. The school classrooms and office are on the ground floor and the student residence is upstairs in the same building. There are four fully-equipped classrooms with whiteboards, large windows, heaters in winter, a CD and DVD player. The school also has a patio downstairs and roof terraces on two floors. Shared areas include the living-dining room and the large kitchen, and there are two bathrooms. In addition there is a staff room, a large entrance hall and the office. The school has Wi-Fi throughout and there is a computer for the students to use.

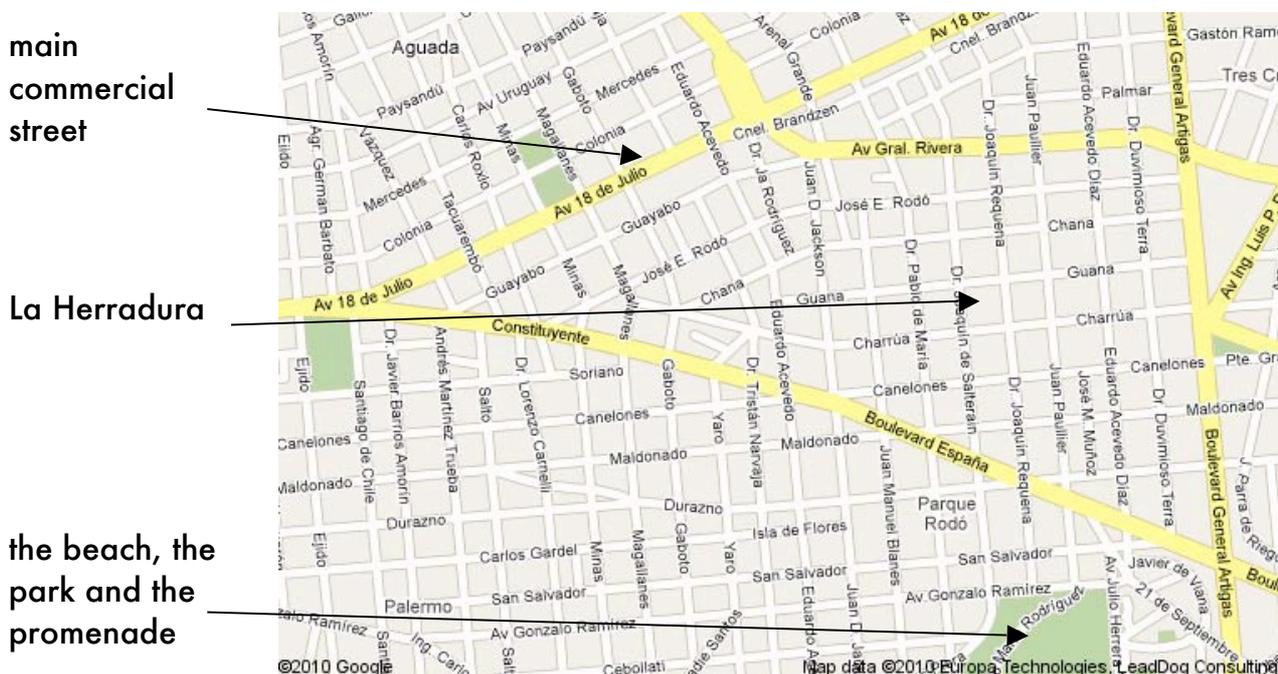

Our street

Students outside the school

The school is located about 10 blocks from the centre and 8 blocks from the nearest beach. There are shops, restaurants, markets, supermarkets, bus services and an ATM within a five-block radius. The main bus terminal is also within walking distance, so it is easy to plan and make trips outside of Montevideo at the weekends.

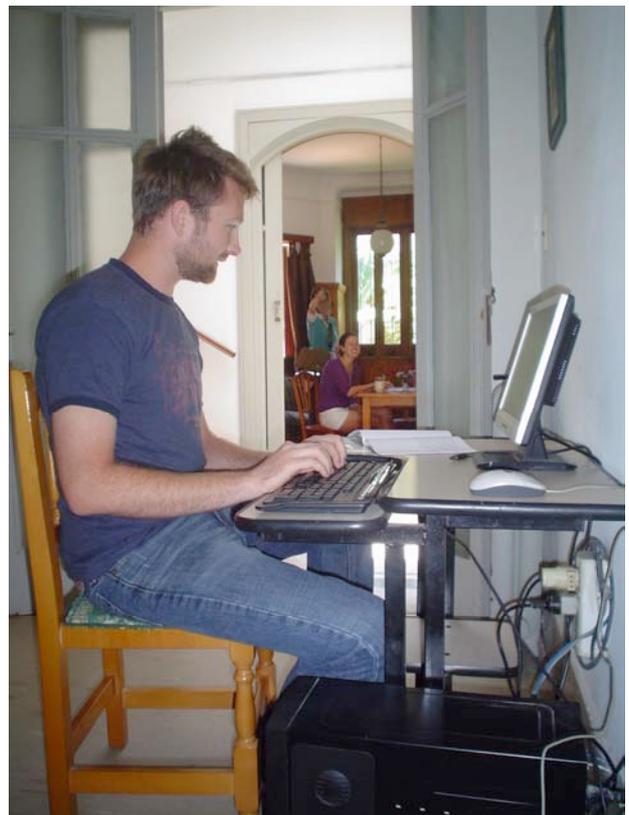

The classrooms:

The office (**below right**) is open Monday to Friday from 08:30 to 15:30 and is the place to go with any doubts or queries about your course, accommodation or your time in Uruguay. The entrance hall (**below left**) also displays a lot of useful information about places to go and transport, as well as the class timetable.

Left: The living room and kitchen
Below: The students' computer

The kitchen door leads to a downstairs patio, and there are roof terraces upstairs on two floors. Plants and a screen provide shade in summer, but there are sunny places for sunbathing too. If the weather is nice we sometimes have conversation class on the terrace.
